

# INTRODUCING

## Johana Xanthopoulos Psychologist

Johana graduated with a Bachelor of Applied Sciences (Psychology) from RMIT University, a Graduate Diploma of Psychology and a Master of Psychology (Clinical) from the Cairnmillar Institute.

Johana first worked in a school setting, working with children, adolescents and parents. She worked with a range of presentations, including depression, anxiety, anger management and ASD.

Johana's special interest areas include the provision of psychological services to children with ASD, as well as their parents. She also enjoys administering cognitive assessments, and is currently working on becoming qualified in the assessment and diagnosis of ASD.

### Johana's recent professional development has included:

- ABA Therapy (2015)
- Anxiety in Children (2016)
- Autism in Australia: We can do better (2017)
- Partnering with Parents: Empowering Parents (2017)
- Early Intervention for Severe Personality Disorders (2017)

Johana is a Clinical Registrar and is a registered Psychologist with the Australian Health Practitioner Regulation Agency and a member of the Australian Psychological Society.

Like all Kalparrin therapists Johana is also a registered Medicare Provider.
